

An easy, 5-step process
that restores natural beauty

Using oxygen, plant-derived stem cells, peptides and concentrated enzymatic botanicals, O² lift delivers a premium spa experience with immediate results. The simple 5-step process makes it incredibly easy to apply, and produces gorgeous, luminous skin that feels as healthy as it is radiant.

Feel it to believe it

As powerful as it is gentle, O² lift rejuvenates in less than an hour, releasing the glowing, natural beauty of fresh youthful skin through an invigorating oxygenation process.

Get immediate “Age Later” results. Skin is left glowing and lifted after just one treatment. It feels every bit as luxurious as it looks. And the results are impeccable. Experience a breath of fresh skin with O² lift by IMAGE Skincare.

O²
lift

a breath of fresh skin

Be
lifted
Exfoliating.
Oxygenating.
Illuminating.

Imagine releasing fresh, healthy skin hidden below layers of older skin cells with a process that's both gentle and invigorating.

Now you can achieve the fresh, healthy rejuvenation of an anti-aging, luxurious spa treatment in an hour.

Introducing the O² lift exclusively by IMAGE Skincare. Truly a breath of fresh skin.

step 1 **cleanse**

The **O² lift gel to milk cleanser** is an acid and sulfate free cleanser that begins as a rich gel, and then quickly transforms to a creamy milk cleanser, gently removing make-up and impurities. Enriched with plant-derived stem cells to slow the aging process and botanical lighteners to actively lighten and brighten the skin.

step 2 **lift**

The **O² lift enzymatic facial peel** is a revolutionary exfoliator. Starting as a thick gel, this fruit enzyme peel liquefies, "rolling" away dead skin cells to provide gentle yet effective total skin rejuvenation.

step 3 **oxygenate**

Our signature treatment, the **O² lift oxygenating facial masque** is a one-of-a-kind masque with "foam burst technology." This effervescent oxygenating masque is designed to create lustrous illuminated skin in just minutes. Formulated to provide instant results for all skin types.

step 4 **rejuvenate**

A true "Age Later" serum, **O² lift stem cell facial enhancer** is an intensive highly preventative booster designed to add high doses of active ingredients such as stem cells, antioxidants, and potent botanicals to achieve maximum protection against aging and damaged cells.

step 5 **protect**

Applying the **O² lift tinted moisturizer** to the entire treated area leaves skin lustrous, even-toned and radiant, while keeping it well protected from UVA and UVB rays. This is essential for the refreshed, post-treatment skin.
